**3:00 P.M.**

**15 H**

This being the first day of the Second Session of the Fortieth Parliament convoked by Proclamation of the Lieutenant Governor for the dispatch of business, and the members of the House having assembled:

His Honour the Lieutenant Governor entered the Legislative Chamber and, having taken his seat on the Throne, was pleased to open the Session by reading the following gracious speech:

### **The Way Forward**

Mr. Speaker, members of the Legislative Assembly, men and women, young and old, across this great province of Ontario.

I would like to acknowledge that we are on the traditional territory of the Mississaugas of the New Credit.

Today it is my privilege as Her Majesty's representative to deliver the first Speech from the Throne drafted by this new government, as we mark the beginning of the second session of the 40th Parliament of Ontario.

If you will allow me a moment of reflection, I would like to speak of another first, a man whom, sadly, we have lost since I last addressed this legislature.

The Honourable Lincoln Alexander was the first black member of Parliament, the first black cabinet minister, the first black Lieutenant Governor of Ontario.

But when he passed away last October, his granddaughters remembered him simply as a true human being with flaws and perfections.

He was born and raised in Toronto, his heart belonged to Hamilton, but he served on behalf of his entire province, and his nation.

He was not hemmed in by the prejudice of others, nor the expectations of his time.

He demonstrated that every individual part of our being informs who we are but it does not define who we are.

And that if we believe in our own abilities, our potential has no limits.

As a man, he was more than the sum of his parts and now, as a memory, he is a symbol of the service we must endeavour to offer.

Your new government believes that Ontario is a place of endless possibilities.

Of flaws and perfections.

Where people have different backgrounds and different views, where they gaze upon different skylines, but share the same hopes.

Your new government sees a great province that brings together disparate elements and bonds them together as one.

And your new government believes the legislature should work the same way.

For the benefit of the entire province, your government intends to work with opposition parties, in a spirit of renewed cooperation, to get the people's business done.

It does not believe that we are irreparably divided.

Or that the challenges we face cannot be overcome.

Nor will it look at any one issue in isolation from another, because your new government believes that complex times require thoughtful, collaborative solutions.

And that we can only surmount each obstacle by acknowledging that they are all connected.

And that we are all connected.

So yes, your government will balance its books — it will also challenge the people of Ontario to help the province innovate and grow.

And yes, your government will strive for economic prosperity — it will also encourage a fair society, where all the people of Ontario have good jobs and strong communities.

And where each and every one of us is safe, and healthy and cared for.

Your government will create a better process to ensure that all its partners, including those within the public sector, are treated with respect.

But it will call upon these same partners to work with this new government so we can journey forward, boldly, as one.

Today, we turn a page in history, in some respects.

Another series of firsts: the first day of a reopened legislature, the first female premier.

We are not starting over, but we are dedicated anew.

### **A Steady Hand and a Bold Vision**

The central objectives of your new government will be fiscal responsibility, economic growth and increased employment — the bedrocks on which it will build.

It will ensure opportunity for all without letting anyone slip through the cracks.

And it will send a clear message that Ontario's finances are in steady hands, so that the confidence of all sectors can be raised.

Your new government will restrain program spending to reduce Ontario's debt-to-GDP ratio, while recommitting itself to eliminating the deficit by 2017-2018.

And after that, it will restrict overall spending increases to one per cent below GDP growth until the province's debt-to-GDP ratio returns to the pre-recession level of 27 per cent.

It will also introduce a balanced approach to balancing the budget so that all parties can work together to find savings without impacting the services on which people rely.

However, your new government understands that Ontario's true potential cannot be reached through austerity alone.

And so it will continue to implement recommendations found in the Drummond Report, including work to evaluate corporate tax compliance.

But it will also be driven by the quest for innovation and growth.

At the heart of this will be your new government's action on job creation, which will draw on the belief that an educated, skilled and diverse workforce is Ontario's greatest strength.

Your government looks to strengthen the earning potential of all men and women of this province — whether they live in cities or small towns, the north or the south — and enable everyone to have a good job and a secure paycheque.

It will empower its industries to expand and its individual citizens to excel.

Your government will coordinate its services with those of non-profit and private sectors so that recent graduates, new Canadians and the unemployed can find a practical path into the workforce.

To address the serious issue of youth unemployment, your government will join forces with high school educators, colleges, universities, training partners and employers to establish opportunities for young people to enhance their skills; find placements, internships and co-op programs; and gain valuable, real world experience.

Aboriginal communities must also have access to the tools and training they need to fully participate in economic development opportunities, including those related to our natural resources.

And so your government is working with Aboriginal communities to ensure that the benefits of resource development are shared and opportunities for education, training and employment are established.

Your government will ensure that all individuals can find their role in this economy.

And so it calls on the private sector to increase the number of people with disabilities in the Ontario workforce.

As a demonstration of its commitment to this goal, your government will shift the Accessibility Directorate from the Ministry of Community and Social Services to the Ministry of Economic Development, Trade and Employment.

Because men and women with disabilities deserve a level playing field.

A renewed partnership with business, educational institutions, not-for-profits and labour will be at the heart of your government's plans to build a modern, competitive and dynamic economy.

And so your new government will work with the opposition and small business to explore an increase in the Employer Health Tax exemption threshold.

It will look to stimulate productivity across all sectors, from automotive and agriculture to film, music, and digital media; from small business to start-ups and social entrepreneurs.

And your government will continue to assert Ontario's pride of place in the realms of manufacturing, financial services, tourism, forestry and natural resource development.

But it will also support the exploration of new economic terrain.

It will work with financial institutions and government agencies to ensure that small- and medium-sized enterprises have access to the capital they need to expand.

And as a demonstration of that commitment, your government will contribute \$50 million to a new \$300-million venture capital fund in partnership with its federal counterparts and the private sector.

Your government will also capitalize on its trade corridors, expanding them and making them attractive to global markets.

It will work with members of our diverse population to open up new opportunities and expand the network of our possibilities.

It will help facilitate the smooth transfer of goods through important hubs like Windsor, across the Detroit River International Crossing, and it will lead trade missions to our valuable partners abroad.

Your government will visit our friends in India and China, but also in Southeast Asia, eastern Europe, the Middle East and South America.

It will ensure that every part of the province has dependable, affordable sources of energy.

And because conservation is the cheapest source of energy available, Ontario will continue to be a leader in smart-grid technology and energy conservation, and see the creation of new-economy jobs through the deployment of leading energy efficiency technologies in our homes and our businesses.

It will also continue its work to end coal-fired energy generation, the single largest climate change initiative currently underway in North America.

As your government moves forward, Ontario's labour force will be treated fairly and with respect.

It will sit down with its partners across all sectors to build a sustainable model for wage negotiation, respectful of both collective bargaining and a fair and transparent interest arbitration process, so that the brightness of our shared future is not clouded by the indisputable economic realities of our time.

It will prove once again that Ontario is a great place to work and live, but also to visit, to invest in, to believe in.

It will celebrate our hard work, our ingenuity, our diversity, our arts and culture, and protect the beauty of our natural environment.

And it calls upon its legislative partners to join with the government in the pursuit of a modern economy, a path to productivity, and good jobs right here in Ontario.

Because the tools of progress must be forged in the fire of our collective will.

### **A New Sense of Community**

Your government understands the importance of relationships in all their manifestations.

The relationship between us as citizens; but also the relationship between individual parts and the whole.

The ways in which our economy is supported by the roads we drive, and the services we continue to offer.

Your government understands that if Ontario is to prosper, then individual communities must prosper.

And that provinces must work together to advocate for their shared needs, and raise their voices as one to demand that a great nation must have the capacity to do great things.

Your government understands that infrastructure is the underpinning of our economy, and that if we continue to lag behind then we will never leap forward.

The people of this province are ready to have a serious conversation about the needs of their communities, whether those needs are better roads or stronger bridges, repaired underpasses or accelerated, integrated transit planning.

To build these things and facilitate Ontario's success, your government believes that smart infrastructure investment can no longer be mired in political rhetoric.

Just as the hard-working men and women of this province can no longer afford to waste their time stuck in traffic.

Or be isolated from one another, and the services they need, because their communities are remote, or their funding is unpredictable.

If we continue to argue about the tools this investment will require then we are deaf to the symphony of progress that echoes around us.

The new government is confident that the people of Ontario are willing to participate in a practical discussion of these costs if they can be guaranteed measurable results.

And those results will be found in the increase of our collective productivity, the reduction of our daily commute times and the reduced impact on our climate and natural environment.

But your government also realizes that these are not the hurdles of one city or one province, but a race against time for Canada as a whole.

Addressing them will require cooperation from all orders of government, and so your government will engage in conversation with its municipal and community partners.

And it will also reach out to its provincial and territorial colleagues to advocate for a national strategy on infrastructure and transit.

It will address the need for improvements to rural roads and bridges, suburban transit, and a solution to the gridlock that threatens to cripple the Greater Toronto and Hamilton Area.

It will address the special transportation needs of Ontario's North and endeavour to improve vital access to the Ring of Fire, and improve the flow of people and goods along our trade corridors to the United States.

Because Ontario cannot evolve if it cannot move.

Your government intends to work with municipalities on other issues, too.

Because communities must be involved and connected to one another.

They must have a voice in their future and a say in their integrated, regional development.

So that local populations are involved from the beginning if there is going to be a gas plant or a casino or a wind plant or a quarry in their hometown.

Because our economy can benefit from these things, but only if we have willing hosts.

Ontario communities must also remain safe.

Because every child in this province should be able to walk home without fear, and no parent should face an unthinkable loss.

And so your government will explore how to improve collaboration along the front lines of community safety, allowing police and prosecutors to build on successful best practices across the justice system.

When it comes to the different regions of this province, your new government will not address your issues in isolation because you are not isolated.

Your new government will work with municipal leaders in every region of this province.

Because our rural and northern residents are unique, and their voices will be heard.

But that same promise is made to young families in condos downtown, to retirees in Ontario's wine country, to the people of the north and the south and the east and the west.

Because your government knows that its citizens are not defined by their location alone.

Because we have autoworkers who live on rural roads, and we have local food advocates who cycle to work in the city.

We have authors and artists and actors in Timmins and men and women who love the outdoors but live in the growing city of London.

We are all extensions of the same landscape, part of the same province; and each citizen will inform its government's perspective and its actions.

Your government knows that Ontario comprises many parts, and is one part of the Canadian whole.

And that while we are all different, we share the same goals.

## **A Fair Society**

To climb to great heights, your government believes that everyone must have the same firm footing.

If we help people now, we will help ourselves immeasurably in the future, because the services provided by your government allow people to work, and prosper and contribute.

Following the recommendations of Frances Lankin and Munir Sheikh, your new government will work to help the unemployed find a job.

And to ensure that the challenging path they must navigate to free themselves from social assistance is not made unduly difficult, your government will enable them to keep more of what they earn through their hard work.

These are people whom all parties hope to empower, and your government encourages the legislature to work together on their behalf.

Your government will also ensure that our citizens have a safe, secure and affordable place to live.

The day-to-day interests of people across Ontario must be addressed, and your government will strive to protect their privacy and their pocketbooks.

It will help this province's nine million drivers by continuing to implement the recommendations of the Auto Insurance Anti-Fraud Task Force, protecting individuals against fraud and working to reduce insurance rates across Ontario.

And it will look to strengthen the rights of Ontario's consumers when it comes to door-to-door sales, debt settlement services, real estate transactions and mobile and smartphone contracts.

Because our marketplace must be fair, and the prices we pay transparent.

The happiness and health of Ontario residents must be enshrined, and so your government will also continue to build the strongest and most innovative health care system in the world, so that the hospitals and research institutions in places like Thunder Bay and Toronto keep setting international standards and saving innumerable lives.

Your government is committed to health promotion to combat smoking and obesity, and it believes strongly in patient-centred care and evidence-based health policy.

Along with all parties in the legislature, it understands the pressing need to expand access to home care in Ontario.

And so your government will continue to expand the support available to people in their homes, and to address the needs of men and women across Ontario currently waiting for the home care services they require.

Your government will also continue to expand access to mental health services and support efforts to reduce stigma for men and women coping with mental illness.

It will work with partners in all related sectors to coordinate the best response to these challenges because Ontario's minds and spirits must be healthy, too.

It will also move forward with a Seniors Strategy to ensure that Ontario can best respond to the needs of its aging population.

It will promote partnership between health care providers – from hospitals and long-term care homes, to community support services and front line medical providers through Community Health Links – so that the care of our loved ones and our most vulnerable citizens is constant and cohesive.

To ensure the best treatment for our children, our parents, grandparents and our friends, your government believes the research community must be supported in its work.

And it is therefore announcing renewed support for the Ontario Brain Institute through a funding partnership with the private sector.

Every dollar your government contributes will leverage four additional dollars from its partners by 2018.

A healthy community also requires strong doses of compassion and forethought.

And so your government will continue to prioritize education and inclusion.

It will keep building a comprehensive early learning and care system, including the successful extension of full-day kindergarten and child care.

It will show its respect for teachers, support staff, principals and school boards.

Because our young people will experience a world of which we can now only dream, and we must all work together to ensure they are equipped with the appropriate tools for their time.

They must be literate in the languages of tomorrow; encouraged to pursue the paths of their choosing and prepared for the challenges ahead.

We must teach them to work together and to believe in themselves.

We must emphasize critical thinking, creativity, teamwork and an entrepreneurial spirit.

We must enamour them to the possibilities of science, math and technology.

We must help them feel safe and take their ideas and their input seriously.

And so your government will create a permanent Premier's youth advisory council.

It will continue to offer the 30 Per Cent Off Ontario Tuition Grant to help more people get a postsecondary education.

And your government believes that First Nation, Metis and Inuit children must share in every opportunity, too.

That we must close the gap with their peers so that they can live and learn and play as they like.

And we must all acknowledge that their proud heritage does not preclude their full participation.

Your government will work with Aboriginal communities, but the federal government must also live up to its important obligations in this regard.

Your government will ensure that attention and respect are extended to all.

It will ensure that Ontario's Francophone community is recognized and celebrated for its culture and its contributions.

And so your government will expand the availability of French postsecondary programs in central and southwestern Ontario.

Our community of new Canadians will be shown that where they were born will not limit what they can achieve.

Ontario is home to citizens who speak many languages; who have brought their culture, their training and their aspirations to this province.

Your government sees Ontario's diverse population as an asset to be exalted.

It is not just a mosaic but a valuable work of art, from which we can glean great knowledge.

The people of this province may speak different languages. They may be young or old, healthy or ailing, rich or poor.

But the parties of this legislature should have their trust, and they deserve our fairness and our support.

### **The Way Forward**

Your government believes that if we can hope to serve Ontario, then we must act together, as one.

The people of Ontario expect this of all members of the legislative assembly.

It is what they want and it is what they deserve.

Members of provincial parliament must be conduits for their constituents, so this legislature can hear all the voices of this province and represent all of its diverse needs.

All parties and each member will be encouraged to contribute to this process, to make their insights known.

Your new government hopes that ideas will be put forward with optimism and purpose, and that voices will not be raised solely for the pursuit or retention of power.

Your government is committed to finding real, creative solutions to the issues we face.

To do this, it will direct its efforts across these aisles, within its ministries, and in partnership with other provinces.

When Ontario hosts the Council of the Federation in Niagara-on-the-Lake this summer, it will work with our provincial partners to expedite the return of principled transfer arrangements with the federal government.

Closer to home, your government expects the talent and tenacity of its public servants to help propel this province to greatness.

It will not over-promise, nor will it be bowed into submission.

It will be respectful and direct, honest and decisive.

Your government, and your cabinet ministers, will be accountable to all the people of Ontario, and work to prevent mistakes before they occur.

And it will work with all parties in the legislature to review the decisions to relocate energy infrastructure in this province.

Your new government is committed to getting real work done on behalf of all the people of Ontario, and it calls upon members of the legislature to come together in support of that noble goal.

There are so many opportunities for progress, for all parties to join together.

There is common ground that transcends partisan politics, and it is found in the desire to make Ontario's economy stronger; to improve its transportation networks and give all the people of this province the same opportunities, purpose and pride.

Your government believes all things are possible.

Your government will not be hemmed in by expectations.

It will explore the endless geography of our shared potential.

Because we are one province, and together we can be more than the sum of our parts.

Your government will tackle its flaws and celebrate the perfections of its people.

Your government will bring together disparate elements and bond them together as one.

Both within these hallowed halls and across this glorious province..

Because we are people with different backgrounds and different views, we gaze upon different skylines but we all share the same hopes.

And your government will endeavour to serve for the benefit of all.

Thank you. Merci. Meegwetch

### **La voie à suivre**

Monsieur le Président, mesdames et messieurs les députés, hommes et femmes, jeunes et moins jeunes, des quatre coins de notre magnifique province de l'Ontario.

J'aimerais souligner que nous sommes sur le territoire traditionnel des Mississaugas de New Credit.

Aujourd'hui, à titre de représentant de Sa Majesté, j'ai le privilège de prononcer le premier discours du Trône de ce nouveau gouvernement à l'occasion de l'ouverture de la deuxième session de la 40<sup>e</sup> législature de l'Ontario.

Si vous me permettez un moment de réflexion, j'aimerais souligner le parcours jalonné de grandes premières d'un homme qui, malheureusement, nous a quittés depuis la dernière fois où je me suis adressé à cette Assemblée.

L'honorable Lincoln Alexander fut le premier député noir élu au Parlement, le premier noir à occuper un poste de ministre et le premier lieutenant-gouverneur noir de l'Ontario.

Lors de son décès en octobre dernier, ses petites-filles se sont souvenues de lui simplement comme d'un être humain, avec ses forces et ses faiblesses.

Il est né et a grandi à Toronto. Hamilton était la ville qu'il considérait la sienne. Mais il a servi les gens au nom de toute sa province, et de toute sa nation.

Il ne s'est pas laissé cantonner par les préjugés ni les attentes de son époque.

Il a montré que chaque partie de notre être influence qui nous sommes, mais ne définit pas qui nous sommes.

Et que, si nous croyons en nos propres capacités, notre potentiel est illimité.

C'était un homme plus grand que la somme de ses parties. Il reste maintenant dans notre mémoire un symbole du service public auquel nous devons aspirer.

Votre nouveau gouvernement croit que l'Ontario est un lieu de possibilités infinies.

Un lieu avec ses forces et ses faiblesses.

Un lieu où les gens ont des antécédents, des points de vue et des horizons différents, mais ont les mêmes espoirs.

Votre nouveau gouvernement voit dans l'Ontario une grande province qui réunit ces éléments disparates et les lie en un tout.

Il croit aussi que son Assemblée législative doit fonctionner de la même façon.

Pour le bénéfice de toute la province, votre gouvernement entend travailler avec les partis d'opposition, dans un esprit de coopération renouvelée, afin de servir la population.

Il ne croit pas que nous soyons définitivement divisés.

Ni que les défis auxquels nous faisons face sont insurmontables.

Ni qu'un enjeu doit être examiné de façon isolée, parce que votre nouveau gouvernement croit que, pour trouver des solutions à des problèmes complexes, il faut agir de façon concertée et songée.

Et que nous pouvons relever chacun de ces défis seulement si l'on reconnaît qu'ils sont tous liés entre eux.

Et que nous sommes tous liés les uns aux autres.

Oui, le gouvernement équilibrera le budget — il demandera aussi à la population de l'Ontario d'aider la province à innover et à croître.

Oui, le gouvernement recherchera la prospérité économique — il encouragera également une société juste, où tous et toutes occupent de bons emplois et vivent dans des communautés solides.

Et où chacun est en sécurité, en santé et reçoit les services dont il a besoin.

Votre gouvernement améliorera le processus pour faire en sorte que chacun de ses partenaires, y compris ceux du secteur public, soit traité avec respect.

Mais il demandera à ces mêmes partenaires de travailler avec lui pour que nous puissions aller de l'avant avec assurance, ensemble.

Aujourd'hui, nous écrivons en quelque sorte une page de l'histoire.

Nous marquons une autre série de grandes premières : la première journée de la réouverture de l'Assemblée législative; la première femme à occuper le poste de premier ministre.

Nous ne recommençons pas à zéro, mais nous poursuivons sur une nouvelle lancée.

### **Stabilité et audace**

Les objectifs centraux de votre nouveau gouvernement seront la responsabilité financière, la croissance économique et la création d'emplois, qui constituent les assises sur lesquelles il s'appuiera.

Il veillera à ce que tous aient des possibilités, et à ce que personne ne tombe entre les mailles du filet.

Il fera clairement savoir que les finances de l'Ontario sont entre bonnes mains, pour accroître la confiance de tous les secteurs.

Votre nouveau gouvernement contiendra les dépenses de programme pour réduire le rapport dette-PIB de l'Ontario, et il réitère son engagement à éliminer le déficit d'ici 2017-2018.

Par la suite, il limitera la hausse des dépenses globales pour qu'elle soit de 1 % inférieure à la croissance du PIB jusqu'à ce que le rapport dette-PIB de la province soit ramené à son niveau d'avant la récession, soit 27 %.

Il proposera également une approche modérée pour équilibrer le budget afin que toutes les parties puissent travailler ensemble pour trouver des façons de réaliser des économies sans toucher les services sur lesquels compte la population.

Toutefois, votre nouveau gouvernement est conscient que les mesures d'austérité ne sont pas le seul moyen d'exploiter le véritable potentiel de l'Ontario.

Il continuera donc à mettre en œuvre les recommandations contenues dans le rapport Drummond en poursuivant notamment son travail visant à évaluer la conformité des entreprises aux lois fiscales.

Cependant, il sera également guidé par la recherche de l'innovation et de la croissance.

Au cœur de cette approche figureront les mesures que prendra votre nouveau gouvernement pour la création d'emplois, qui s'appuieront sur la croyance voulant qu'une main-d'œuvre instruite, compétente et diversifiée représente la plus grande force de l'Ontario.

Le gouvernement souhaite renforcer la capacité de gain de toutes les Ontariennes et de tous les Ontariens, qu'ils vivent dans les grandes villes ou les petits villages, au Nord ou au Sud, et leur donner la possibilité d'avoir un bon emploi et une rémunération stable.

Il donnera à ses industries les moyens de se développer et, à ses citoyens, les moyens d'exceller.

Le gouvernement coordonnera ses services avec ceux des secteurs privés et sans but lucratif afin que les jeunes diplômés, les nouveaux Canadiens et les chômeurs puissent trouver leur voie sur le marché du travail.

Pour s'attaquer au sérieux problème du chômage chez les jeunes, le gouvernement travaillera en partenariat avec les éducateurs des écoles secondaires, les représentants des collèges et des universités, les agents de formation et les employeurs pour offrir aux jeunes la possibilité d'améliorer leurs compétences et de trouver des stages et des programmes d'enseignement coopératif qui leur permettront d'acquérir une expérience de travail concrète et enrichissante.

Les communautés autochtones doivent elles aussi avoir accès aux outils et à la formation dont elles ont besoin pour tirer parti des occasions de développement économique, notamment de celles découlant de nos richesses naturelles.

Votre gouvernement travaille donc avec les communautés autochtones pour veiller au partage des gains tirés de l'exploitation des richesses naturelles ainsi qu'à la création de possibilités en matière d'éducation, de formation et d'emploi.

Votre gouvernement veillera à ce que tous puissent trouver leur place et jouer leur rôle au sein de l'économie.

Il demande donc au secteur privé d'augmenter le nombre de personnes handicapées embauchées en Ontario.

Pour démontrer l'importance qu'il accorde à ce but, le gouvernement transfèrera la Direction générale de l'accessibilité, qui relève actuellement du ministère des Services sociaux et communautaires, au ministère du Développement économique, du Commerce et de l'Emploi.

Parce que les personnes handicapées ne veulent pas simplement un coup de main, elles veulent être traitées équitablement.

Un partenariat renouvelé avec les entreprises, les établissements d'enseignement, les organismes sans but lucratif et les syndicats sera au cœur des plans du gouvernement pour mettre en place une économie moderne, compétitive et dynamique.

Votre nouveau gouvernement travaillera donc avec l'opposition et les petites entreprises pour examiner la hausse du seuil de l'exemption au titre de l'impôt-santé des employeurs.

Il cherchera à stimuler la productivité dans tous les secteurs, de l'industrie de l'automobile à celle de l'agriculture, en passant par les secteurs du cinéma, de la musique et des médias numériques, au sein des petites entreprises, de celles en développement et des entreprises sociales.

Par ailleurs, il continuera à affirmer la place privilégiée de l'Ontario dans l'industrie manufacturière, les services financiers, le tourisme, la foresterie et l'exploitation des richesses naturelles.

Il soutiendra également l'exploration de nouvelles avenues économiques.

Il travaillera avec les institutions financières et les organismes gouvernementaux pour que les petites et moyennes entreprises aient accès au capital dont elles ont besoin pour prendre de l'expansion.

Et comme preuve de cet engagement, le gouvernement injectera 50 millions de dollars dans un nouveau fonds de capital-risque de 300 millions de dollars en partenariat avec ses homologues fédéraux et le secteur privé.

Le gouvernement tirera profit de ses corridors commerciaux et les développera de façon à susciter l'intérêt des marchés internationaux.

Il travaillera avec les membres de la population diverse de l'Ontario pour créer de nouveaux débouchés et étendre le réseau de nos possibilités.

Il facilitera le transfert des marchandises transitant par des carrefours importants, tels que Windsor, au Passage international de la rivière Détroit, et conduira des missions commerciales chez nos partenaires importants à l'étranger.

Votre gouvernement visitera nos amis de l'Inde et de la Chine, mais aussi ceux d'Asie du Sud-Est, d'Europe de l'Est, du Moyen-Orient et d'Amérique du Sud.

Il s'assurera que toutes les régions de la province ont accès à des sources d'énergie fiables et abordables.

En outre, parce que l'économie d'énergie représente en quelque sorte la source d'énergie la moins coûteuse qui soit, l'Ontario continuera d'être un chef de file mondial en matière de technologie de réseau électrique intelligent et d'économie d'énergie, et verra la création d'emplois de l'économie du savoir grâce au déploiement, dans nos maisons et nos entreprises, de technologies écoénergétiques de pointe.

Votre gouvernement continuera également de fermer les centrales au charbon, la mesure la plus importante de lutte contre les changements climatiques en cours en Amérique du Nord.

À mesure que votre gouvernement mettra en œuvre son programme, la main-d'œuvre de l'Ontario sera traitée équitablement et avec respect.

Il travaillera avec ses partenaires de tous les secteurs pour bâtir un modèle durable de négociation salariale qui respectera la négociation collective, de sorte que notre avenir commun et prometteur ne soit pas assombri par les réalités économiques auxquelles nous faisons face.

Il prouvera, une fois de plus, que l'Ontario est un endroit où il fait bon non seulement vivre et travailler, mais aussi voyager et investir, et qu'il mérite qu'on croit en son potentiel.

Il célébrera notre ardeur au travail, notre ingéniosité, notre diversité, nos arts et notre culture, et protégera la beauté de notre environnement naturel.

Il demande à ses partenaires de l'Assemblée législative de travailler avec lui afin de bâtir une économie moderne, de stimuler la productivité et de créer de bons emplois ici en Ontario.

Parce que les outils du progrès doivent être forgés dans le creuset de notre volonté collective.

### **Un nouveau sentiment d'appartenance**

Votre gouvernement comprend l'importance que revêtent les relations, sous toutes leurs formes.

Les relations qui existent entre nous, citoyens, mais aussi entre chacune des parties et l'ensemble du système.

La façon dont les routes que nous empruntons et les services que nous continuons d'offrir soutiennent notre économie.

Votre gouvernement comprend que pour que l'Ontario prospère, les collectivités doivent prospérer elles aussi.

Il comprend aussi que les provinces doivent se concerter pour faire valoir leurs besoins communs, et œuvrer à l'unisson pour faire entendre leur voix et réclamer la capacité d'accomplir de grandes choses, comme il se doit pour une grande nation.

Votre gouvernement comprend que les infrastructures sont les piliers de notre économie, et que ce n'est pas en faisant du surplace que nous avancerons.

Les gens de cette province sont prêts à engager une conversation sérieuse sur les besoins de leurs communautés, qu'il s'agisse de meilleures routes, de ponts plus solides, de réparations aux passages inférieurs ou de la planification accélérée et intégrée des transports en commun.

Pour construire ces infrastructures et favoriser la réussite de l'Ontario, il faut affranchir de la rhétorique politique les investissements judicieux dans les infrastructures.

Les Ontariennes et Ontariens qui travaillent fort n'ont pas les moyens de perdre leur temps dans des embouteillages.

Ni d'être isolés les uns des autres et des services dont ils ont besoin parce qu'ils vivent dans des communautés éloignées ou que le financement est imprévisible.

Si nous continuons à nous quereller à propos des outils nécessaires à ces investissements, alors nous faisons la sourde oreille à la symphonie du progrès qui retentit autour de nous.

Votre nouveau gouvernement croit que la population de l'Ontario est prête à prendre part à une discussion intelligente sur les coûts nécessaires si on lui garantit des résultats mesurables.

Et ces résultats prendront la forme d'une productivité collective accrue, d'une importante diminution des temps de déplacement au quotidien et d'une réduction des répercussions sur notre climat et notre environnement.

Mais le gouvernement est aussi conscient qu'il ne s'agit pas d'obstacles uniques à une ville ou à une province, mais bien d'une course contre la montre pour l'ensemble du Canada.

Cela exigera une coopération sans précédent de la part de tous les ordres de gouvernement, et votre gouvernement engagera la conversation avec ses partenaires municipaux.

Il entrera également en contact avec ses collègues provinciaux et territoriaux dans le but de promouvoir la mise en place d'une stratégie nationale sur l'infrastructure et les transports en commun.

Il se penchera sur les améliorations à apporter aux routes rurales, aux ponts et aux transports en commun dans les banlieues, et s'efforcera de trouver une solution à la congestion qui menace de paralyser la région du grand Toronto et de Hamilton.

Il s'attardera aussi aux besoins particuliers du Nord de l'Ontario en matière de transport et s'efforcera d'améliorer l'accès crucial au Cercle de feu ainsi que la circulation des gens et des marchandises le long de nos corridors commerciaux vers les États-Unis.

Car l'Ontario ne peut pas évoluer s'il ne peut pas bouger.

Votre gouvernement entend travailler avec les municipalités à d'autres dossiers également.

Car les collectivités doivent être parties prenantes et reliées entre elles.

Elles doivent avoir voix au chapitre quant à leur avenir et à leur développement régional intégré.

Les populations locales pourront ainsi participer au processus dès le début, et donner leur opinion, si l'on planifie l'aménagement d'une usine à gaz, d'un casino, d'un parc éolien ou d'une carrière dans leur ville.

Parce que notre économie peut profiter de ces choses, mais uniquement si nous avons des collectivités désireuses de les accueillir.

Les collectivités de l'Ontario doivent aussi demeurer sûres.

Parce que chaque enfant de la province doit pouvoir se rendre chez lui à pied, sans crainte, et qu'aucun parent ne devrait subir une perte inimaginable.

Votre gouvernement explorera donc des façons d'améliorer la collaboration entre les intervenants de première ligne en matière de sécurité communautaire, afin de permettre à la police et aux procureurs de s'appuyer sur les pratiques exemplaires dans l'ensemble du système de justice.

En ce qui a trait aux différentes régions de la province, votre nouveau gouvernement n'abordera pas les enjeux qui vous concernent de façon isolée, parce que vous n'êtes pas isolées.

Il travaillera avec les dirigeants municipaux de chaque région de la province.

Car nos résidents des collectivités rurales et du Nord sont uniques, et leur voix sera entendue.

Cette promesse vaut également pour les jeunes familles vivant dans des condos au centre-ville, les retraités résidant dans la région vinicole de l'Ontario, les gens du Nord et du Sud, de l'Est et de l'Ouest.

Car votre gouvernement est conscient que les citoyens de cette province ne sont pas définis uniquement par l'endroit où ils vivent.

Il y a des travailleurs du secteur de l'automobile qui vivent près de routes rurales et des locavores qui vont travailler en ville à vélo.

Il y a des auteurs, des artistes et des acteurs qui habitent à Timmins, et des hommes et des femmes amateurs de plein air qui vivent dans la ville de London en plein essor.

Nous sommes tous une extension du même paysage, nous faisons tous partie d'une même province; chaque citoyen contribuera à façonner la perspective et l'action de son gouvernement.

Votre gouvernement est conscient que l'Ontario est composé de multiples parties et est lui-même une partie du tout canadien.

Et bien que nous soyons tous différents, nous partageons tous les mêmes buts.

### **Une société équitable**

Le gouvernement croit que, pour aller de l'avant, chacun doit avoir la même base solide.

Si nous aidons les gens maintenant, nous contribuons à un futur infiniment meilleur pour tous, car les services offerts par le gouvernement permettent aux gens de travailler, de prospérer et d'être productifs.

Pour donner suite aux recommandations de Frances Lankin et Munir Sheikh, votre nouveau gouvernement s'efforcera d'aider les chômeurs à trouver du travail.

Et pour s'assurer que le parcours qu'ils doivent suivre pour s'affranchir de l'aide sociale n'est pas indûment ardu, il leur permettra de garder une partie plus importante du revenu qu'ils auront gagné grâce à leur dur labeur.

Ce sont des personnes que tous les partis souhaitent habiliter, et le gouvernement encourage l'Assemblée législative à travailler de concert en leur nom.

Le gouvernement s'assurera également que tous nos citoyens ont un endroit où vivre, un endroit sûr et abordable.

Il faut répondre aux intérêts quotidiens des Ontariennes et des Ontariens et votre gouvernement s'emploiera à protéger leur vie privée et leur portefeuille.

Il aidera les neuf millions de conducteurs de l'Ontario en poursuivant la mise en œuvre des recommandations du Groupe de travail antifraude de l'assurance-automobile, afin de protéger les consommateurs contre la fraude et éventuellement de réduire les tarifs d'assurance en Ontario.

Le gouvernement veillera à renforcer les droits des consommateurs ontariens en ce qui a trait à la vente porte-à-porte, aux services de règlement de dette, aux transactions immobilières et aux contrats de service pour les téléphones cellulaires et les téléphones intelligents.

Car le marché doit être équitable, et les prix que nous payons doivent être transparents.

Les Ontariennes et Ontariens ont un droit inhérent au bonheur et à la santé. Votre gouvernement continuera donc aussi à bâtir le système de santé le plus solide et innovateur au monde, pour que les hôpitaux et les établissements de recherche dans des endroits tels que Thunder Bay et Toronto puissent établir des normes internationales et sauver un nombre incalculable de vies.

Votre gouvernement s'engage à promouvoir la santé en luttant contre le tabagisme et l'obésité, et croit dans un système de soins axés sur les patients qui repose sur des politiques étayées par des données probantes solides.

Comme tous les partis de l'Assemblée législative, le gouvernement croit à la nécessité d'améliorer sans délai l'accès aux soins à domicile en Ontario.

Votre gouvernement poursuivra donc ses efforts pour accroître les mesures de soutien à domicile et répondre aux besoins des Ontariennes et des Ontariens actuellement en attente de services à domicile.

Le gouvernement continuera également d'accroître l'accès aux services de santé mentale et soutiendra les efforts pour réduire les préjugés entourant les hommes et les femmes aux prises avec la maladie mentale.

Il travaillera avec les partenaires dans tous les secteurs connexes pour coordonner l'intervention la plus appropriée pour relever ces défis, parce que l'Ontario doit être fort et en santé.

Il proposera également une stratégie à l'égard des personnes âgées pour que l'Ontario puisse répondre le plus adéquatement possible aux besoins de sa population vieillissante.

Il favorisera l'établissement de partenariats entre les fournisseurs de soins de santé, dans les hôpitaux aussi bien que dans les foyers de soins de longue durée, les services de soutien communautaires et les fournisseurs de soins médicaux de première ligne par l'entremise des maillons santé communautaire, afin que nos proches reçoivent des soins de façon assidue et harmonieuse.

Le gouvernement croit que, pour assurer les meilleurs traitements qui soient à nos enfants, parents, grands-parents et amis, il faut soutenir le milieu de la recherche.

Il annonce donc qu'il renouvellera son soutien à l'Institut ontarien de recherche sur le cerveau de l'Ontario dans le cadre d'un partenariat de financement avec le secteur privé.

Chaque dollar versé par le gouvernement permettra d'obtenir quatre dollars supplémentaires de la part de ses partenaires d'ici 2018.

Une communauté en santé requiert aussi une forte dose d'amitié, de compassion et de prévoyance.

Le gouvernement continuera donc d'accorder la priorité à l'éducation et à l'inclusion.

Il continuera de bâtir un système de garde et d'éducation de la petite enfance, en poursuivant notamment l'expansion réussie de la maternelle et du jardin d'enfants à plein temps et des services de garde.

Il manifesterà son respect à l'endroit des enseignants, du personnel de soutien, des directrices et directeurs d'école et des conseils scolaires.

Car nos jeunes vivront dans un monde dont nous pouvons seulement rêver pour l'instant, et nous devons tous travailler de façon concertée pour nous assurer qu'ils sont dotés des outils dont ils auront besoin dans l'avenir.

Ils doivent connaître les langues de demain, être encouragés à choisir le parcours qui les intéresse et être prêts à relever les défis que l'avenir leur réserve.

Nous devons leur enseigner à travailler ensemble et à croire en eux.

Nous devons mettre l'accent sur la pensée critique, la créativité, le travail d'équipe et l'esprit d'entrepreneuriat.

Nous devons leur faire découvrir les possibilités passionnantes offertes dans les domaines des mathématiques, de la science et de la technologie.

Nous devons les aider à se sentir en sécurité et prendre au sérieux leurs idées et opinions.

Le gouvernement créera donc un conseil consultatif de la jeunesse permanent qui relèvera de la première ministre.

Il continuera à offrir la réduction de 30 % des frais de scolarité pour qu'un plus grand nombre de diplômés du secondaire puissent poursuivre leurs études.

Le gouvernement est aussi d'avis que les enfants des peuples métis, inuits et des Premières nations doivent profiter de toutes les possibilités.

Que nous devons combler l'écart entre eux et leurs pairs pour qu'ils puissent vivre, apprendre et jouer à leur guise.

Et nous devons reconnaître que leurs fières traditions n'excluent pas leur pleine participation.

Votre gouvernement travaillera avec les communautés autochtones, mais le gouvernement fédéral a aussi d'importantes obligations à remplir à cet égard.

Votre gouvernement veillera à ce que tous bénéficient de l'attention et du respect qu'ils méritent.

Votre gouvernement veillera aussi à ce que la culture et les contributions de notre communauté francophone soient reconnues et célébrées.

C'est pourquoi il élargira la disponibilité des programmes d'études au palier postsecondaire dans le Centre-Sud-Ouest de l'Ontario.

Nous montrerons aux nouveaux Canadiens que, peu importe leur lieu de naissance, ils pourront réaliser leur potentiel.

L'Ontario est la terre d'accueil de citoyens qui parlent de nombreuses langues et qui ont apporté avec eux leur culture, leur formation et leurs aspirations.

Le gouvernement considère que la population diversifiée de l'Ontario est un atout noble.

Ce n'est pas simplement une mosaïque, mais une œuvre d'art de laquelle nous pouvons tirer de précieux enseignements.

Les habitants de cette province parlent peut-être des langues différentes. Ils peuvent être jeunes ou âgés, en santé ou malades, riches ou pauvres.

Mais ils font confiance aux partis de cette Assemblée, et ils méritent un traitement équitable et notre soutien.

### **La voie à suivre**

Le gouvernement croit que si nous désirons servir l'Ontario, nous devons travailler ensemble, à l'unisson.

Les habitants de cette province s'attendent à ce que tous les députés de l'Assemblée législative travaillent ensemble.

C'est ce qu'ils souhaitent et ce qu'ils méritent.

Les députés provinciaux doivent être des intermédiaires pour leurs électeurs afin que l'Assemblée législative puisse entendre toutes les voix de cette province et représenter ses divers besoins.

Tous les partis et tous les députés seront encouragés à contribuer à ce processus et à faire part de leur perspective.

Votre nouveau gouvernement espère que des idées seront proposées dans un esprit d'optimisme et à des fins constructives, et que les voix ne s'élèveront pas uniquement dans le but d'obtenir et de conserver le pouvoir.

Votre gouvernement est déterminé à faire preuve de créativité afin de trouver de véritables solutions aux problèmes qui se posent.

Pour ce faire, il déploiera des efforts parmi les membres de l'opposition, au sein de ses ministères et en partenariat avec les autres provinces.

Lorsque nous accueillerons le Conseil de la fédération à Niagara-on-the-Lake l'été prochain, nous travaillerons avec nos partenaires provinciaux afin d'accélérer le retour d'arrangements de transferts fiscaux axés sur des principes.

Plus près de nous, le gouvernement s'attend à ce que le talent et la ténacité de ses fonctionnaires contribuent à propulser la province vers de plus hauts sommets.

Il ne fera pas de promesses qu'il ne peut pas tenir et ne courbera pas non plus l'échine.

Il sera respectueux et direct, honnête et décisif.

Votre gouvernement, et vos ministres, rendront des comptes à l'ensemble de la population de l'Ontario et s'emploieront à prévenir les erreurs.

Il travaillera avec tous les partis de l'Assemblée législative afin de passer en revue les décisions touchant la relocalisation des infrastructures énergétiques dans la province.

Votre nouveau gouvernement est déterminé à prendre des mesures concrètes au nom de tous les Ontariens et Ontariennes, et invite les membres de l'Assemblée à se joindre à lui pour soutenir ce noble but.

Les possibilités de progrès sont nombreuses, tout comme les occasions de conciliation.

Il existe des terrains d'entente qui transcendent la politique partisane, notamment le désir de renforcer l'économie de l'Ontario, d'améliorer ses réseaux de transport et de donner à tous les gens de la province les possibilités de poursuivre leur but et d'être fiers.

Votre gouvernement croit que tout cela est possible.

Votre gouvernement ne se laissera pas limiter par les attentes.

Il explorera la géographie infinie de notre potentiel commun.

Car nous faisons partie d'une province et, ensemble, nous formons un tout plus grand que la somme de nos parties.

Votre gouvernement s'attaquera à ses faiblesses et célébrera les forces de sa population.

Votre gouvernement rassemblera des éléments disparates et les réunira en un tout.

Tant à l'intérieur de cette vénérable enceinte qu'aux quatre coins de notre glorieuse province.

Car, bien que nous ayons des antécédents, des points de vue et des horizons différents, nous partageons les mêmes espoirs.

Votre gouvernement s'efforcera d'être au service de toute la population.

Thank you. Merci. Meegwetch.

His Honour was then pleased to retire.

The Speaker delivered the following ruling:-

On September 13, 2012, in response to a point of privilege raised by the Member for Cambridge on August 27, I ruled that a *prima facie* case of privilege had been established. On October 2, the House adopted a motion to refer this matter to the Standing Committee on Finance and Economic Affairs. The Session was then prorogued on October 15, before the Committee had even its first meeting to consider this issue.

Careful research has revealed that this circumstance of a privilege matter in one of our committees being interrupted by a prorogation has not occurred in the Ontario Legislature. Moreover, it is a strikingly rare occurrence in the senior parliaments of the Commonwealth. However, a similar instance was found to have occurred in the Canadian House of Commons in 2004. Speaker Milliken decided that a matter of privilege that had already been ruled on and referred by the House to a committee, but left unfinished because of an intervening prorogation, could be renewed in the new Session.

Speaker Milliken found that the committee was entitled to conduct its review of the matter and make its report to the House. He confirmed his previous ruling and that a bona fide case of privilege existed, and he permitted the member who initially raised the matter to move his same motion to refer the matter to committee again.

**PRIÈRES**

Le Président a rendu la décision suivante :-

Similarly, in the matter raised by the Member for Cambridge, it is true that the October 15, 2012 prorogation terminated all business of the Standing Committee on Finance and Economic Affairs, including the referral of the matter of my September 13, 2012 ruling. In that ruling, a *prima facie* case of privilege had been established and, as Speaker Milliken found, a prorogation does not nullify such a finding.

I therefore re-confirm my ruling of September 13, 2012 and invite the Member for Cambridge to renew his motion to refer this matter to committee.

Mr. Leone moved,

M. Leone propose,

That this House directs the Minister of Energy and the Ontario Power Authority to immediately table with the Clerk of the House all remaining documents related to the Oakville and Mississauga Gas Plants ordered by the Standing Committee on Estimates on May 16, 2012; and

That the matter of the Speaker's finding of a *prima facie* case of privilege, with respect to the production of documents by the Minister of Energy and the Ontario Power Authority to the Standing Committee on Estimates, be referred to the Standing Committee on Justice Policy, which is hereby re-constituted as it existed on September 9, 2012; and

That the Committee shall be authorized to meet at the call of the Chair, concurrently with the House or when the House stands adjourned, to meet notwithstanding prorogation of the House; and

That the Committee shall report back to the House its findings and recommendations within 90 calendar days, and, if the House is not sitting, release with the Clerk of the House its report, except, that if the committee determines that more time is required, it shall issue an interim report at the 90 day mark and then take such reasonable time as it considers necessary to complete its final report.

That the motion be amended to add the following paragraph after the second paragraph of the motion:

"That, in exercising its authority throughout the Committee proceedings, the Committee shall adhere to the minimum standards of procedural fairness and the principles of fundamental justice as required by the Charter of Rights and Freedoms."

Debate resumed and after some time, the amendment carried.

Mr. Leone's motion, as amended, carried.

Ordered, That this House directs the Minister of Energy and the Ontario Power Authority to immediately table with the Clerk of the House all remaining documents related to the Oakville and Mississauga Gas Plants ordered by the Standing Committee on Estimates on May 16, 2012; and

Opposition Day

Ms. MacLeod moved,

That, in the opinion of this House, Ontario students and their parents deserve a world class education system with the best and brightest teachers that includes extra-curricular and co-curricular activities that are free from disruptions;

And whereas, extra-curricular and co-curricular activities enrich our children's learning experience and the McGuinty-Wynne government have been unable to ensure that these programs are protected in our schools;

And whereas, despite enacting and then repealing Bill 115, the Putting Students First Act which imposed union contracts on teachers and education workers, the government has not been able to ensure stability in Ontario's schools;

And whereas, the House believes that teachers in our classrooms should be hired because they are the best qualified to teach our students rather than being hired based on seniority; therefore,

The Premier and the Minister of Education should, within 72 hours of the passage of this motion, send a letter to all Directors of Education, Trustees of District School Boards and the union leaders at the Central offices and Local offices of all the provincial teachers' unions, that expresses the will of this duly and democratically elected Legislature that:

- The Government should introduce legislation that amends a teachers' job description to re-include certain co-instructional activities that the Liberal government removed. Said co-instructional activities to be re-introduced into a teacher's legislated job description shall include, but not be limited to: timely and fully completed report cards; meeting with parents outside classroom hours; attending staff meetings; marking assignments; and helping students with remediation, special needs and extra work after school;

- That union leaders should no longer tell front-line teachers how those teachers may use their personal time both inside of or outside of the school day, including but not limited to: volunteering; helping students; supervising, performing or organizing extra-curricular or co-curricular activities; and that, contravening the aforementioned shall be considered by this House an abuse of union power and that those involved in such tactics should be referred to the Ministry of Labour for investigation for engaging in illegal labour action under Ontario's Labour Relations Act and subject to fines; and that, if fined, they should be reported to the Ontario College of Teachers for workplace harassment and conduct unbecoming of a teaching professional;
- That the Liberal government, through an order-in-council, should repeal all aspects of the controversial Ontario Regulation 274/12, Hiring Practices, that was instated on September 12, 2012. By repealing this regulation the Government recognizes that they have hindered student success by preventing principals in our schools to hire the best qualified teacher for the job.

The Speaker delivered the following ruling:-

Le Président a rendu la décision suivante :-

On February 20, 2013, the Member for Prince Edward–Hastings (Mr. Smith) rose on a point of privilege concerning the government's incomplete production of documents relating to its decision to cancel the construction of two power plants in 2010 and 2011. According to the Member, in the previous Session government Members had made deliberately misleading statements about the extent of production, and the Minister of Energy had failed to produce all documents responsive to an Order of the House. The Government House Leader (Mr. Milloy) and the Member for Timmins–James Bay (Mr. Bisson) also spoke to the matter. Having reviewed the notice provided by the Member for Prince Edward–Hastings, the written submissions of the Government House Leader and of the Official Opposition House Leader, relevant Hansards from the current and previous Sessions, and various parliamentary authorities, I am now prepared to rule on the matter.

Let me begin by providing some background. The Member's point of privilege arises out of the government's initial non-production of all documents that were the subject of a May 16, 2012 order of the Standing Committee on Estimates, a September 13, 2012 Speaker's ruling to the effect that a *prima facie* case of privilege had been established with respect to the non-production, and an October 2 Order of the House directing “the Minister of Energy and the Ontario Power Authority to table immediately with the Clerk of the House all remaining documents ordered by the Standing Committee on Estimates on May 16, 2012.”

As Members are aware, many responsive documents were tabled on September 24 and October 12, and then more recently on February 21. The September 24 tabling, which was made in the aftermath of the September 13 Speaker's ruling, included a cover letter from the Minister of Energy to the effect that he had been "advised by Ministry staff that the documents attached to this letter comprise all documents that are responsive to the committee's request regardless of privilege or confidentiality", as well as a cover letter from the Chief Executive Officer of the Ontario Power Authority to the effect that "[t]hese documents comprise responsive material" related to the Committee's May 16 requests.

In the first few days after the September 24 tabling, many government Members indicated that the tabled documents constituted full production of the documents sought. However, these statements did not appear to be accurate because many more documents - including a cover letter from the Deputy Minister of Energy and another from the Chief Executive Officer of the Ontario Power Authority - were tabled on October 12. At the outset of the next Sessional day, October 15, the Minister of Energy and the Government House Leader corrected their records concerning post-September 24 statements that they had made inside and outside the House to the effect that the September 24 tabling constituted full production.

On a point of privilege raised later the same day, the Member for Prince Edward-Hastings alleged that statements many government Members had made in the House after September 27 were misleading. According to the Member, government Members indicated in the House after September 27 that all documents responsive to the May 16 request for documents by the Standing Committee on Estimates and to the September 13 Speaker's ruling had been tabled on September 24 when, according to information contained in letters tabled on October 12, they purportedly knew by September 27 that this was not the case.

My ruling on this point of privilege was reserved, but the ruling was never made in the previous Session because prorogation occurred the same day - hence the reason for the Member rising on a point of privilege on February 20.

I first want to clarify that the September 13 ruling did not constitute an Order to produce the documents in question. The Speaker has no authority to order production; only the House and its committees can do so. As already noted, the authority to order production was exercised in the previous Session on May 16 (in the case of the Standing Committee on Estimates) and on October 2 (in the case of the House).

In written submissions on this point of privilege, the Official Opposition House Leader points me to two rulings in the Canadian House of Commons by Speaker Milliken that he believes are instructive in the case at hand and supportive of the point of privilege raised by the Member for Prince Edward-Hastings.

The most recent was made on March 9, 2011, and arose from a point of privilege raised as a result of a report by the Standing Committee on Foreign Affairs and International Development. In that report, the committee noted that the Minister of International Cooperation, Bev Oda, made inconsistent statements in the House and in the committee concerning the funding of a foreign aid organization called KAIROS. The crux of this ruling surrounded the fact that sufficiently different statements were made in two parliamentary venues, such that they caused confusion that had not been cleared up. In the face of these contradictory statements, which remained unreconciled, Speaker Milliken found that sufficient doubt existed to warrant a finding of *prima facie* privilege in that case.

I do not see this decision as being applicable to the point raised by the Member for Prince Edward-Hastings because there has been no case made that confusingly contradictory statements have been made to this House.

The other Milliken ruling drawn to my attention was made on February 1, 2002 and concerned an allegation that then-National Defence Minister Art Eggleton had deliberately misled the House of Commons. This ruling has been referred to in this House before, and was directly addressed by Speaker Carr in his June 17, 2002 ruling, as follows:

I see no precedential value to Speaker Milliken's ruling - within the ambit of parliamentary privilege - since, if the ruling is carefully read, it becomes apparent that a *prima facie* case of privilege was not explicitly found. Rather, Speaker Milliken seems to have stopped himself short in that regard and chose instead a novel approach, finding ultimately - without mentioning privilege - that the matter deserved consideration by a committee, and inviting a motion to give effect to this result.

I would generally be hesitant to appropriate for myself such an original, informal approach since the precedents, traditions and customs of this House around questions of privilege reveal a more definitive tendency. In my view, there are no shades of grey when it comes to parliamentary privilege and I would not like to promote such a view by delivering a ruling that failed to address, squarely and solely on its procedural merits, the question raised.

I concur with the view taken by Speaker Carr, and later that of Speaker Peters, who similarly rejected the precedential usefulness of this Milliken ruling on September 28, 2009.

In the point raised by the Member for Prince Edward-Hastings, the allegation is that misleading information was knowingly given to the House. As was indicated in various oral and written submissions on this matter, the criteria for determining whether a Member has deliberately misled the House is described at pages 653 and 654 of the 3rd edition of McGee's *Parliamentary Practice in New Zealand* in the following terms:

There are three elements to be established when it is alleged that a member is in contempt by reason of a statement that the member has made: the statement must, in fact, have been misleading; it must be established that the member making the statement knew at the time the statement was made that it was incorrect; and, in making it, the member must have intended to mislead the House.

These criteria are, by their very nature, not easily satisfied. As Speaker Carr indicated (at page 102 of the Journals for June 17, 2002):

The threshold for finding a *prima facie* case of contempt against a Member of the Legislature, on the basis of deliberately misleading the House, is therefore set quite high and is very uncommon. It must involve a proved finding of an overt attempt to intentionally mislead the Legislature. In the absence of an admission from the Member accused of the conduct, or of tangible confirmation of the conduct, independently proved, a Speaker must assume that no honourable Members would engage in such behaviour or that, at most, inconsistent statements were the result of inadvertence or honest mistake.

I now turn to the application of the first criteria in the McGee test to what was said and done between September 24 and October 15. Were misleading statements made to the House? With respect to the September 24 tabling, the Minister of Energy indicated in his September 24 letter he had been "advised by Ministry staff" that the September 24 tabling constituted full production.

The Minister of Energy and the Government House Leader both subsequently used unequivocal language and described those documents as fully responsive to the Orders for their production, as did various other government members. As we all know, that was not the case so there can be no doubt that these statements were incorrect and thereby could have been misleading.

Did the members making the statements know at the time they were made that they were incorrect? The Member for Prince Edward-Hastings says that, according to information contained in the letters accompanying the October 12 tabling of documents, the government became aware of the existence of additional documents by September 27. However, a close reading of the letters suggests only that the government knew on that date that there was a possibility that there were additional responsive documents, and that based on that possibility a process was put in place to determine whether or not there actually were additional responsive documents.

After September 27, presumably equipped with the knowledge that the potential existed that there were further documents beyond those tabled on September 24, the unequivocal language ceased. In my mind, this represents a conscientious effort to ensure that subsequent statements to the House were correct. There is no evidence before me that convinces me that the former Minister of Energy and other members of the government had any reason not to accept the information they initially had that all of the documents had been tabled on September 24. Indeed, the letters tabled on September 24 confirm that this was the information they had been given. In my opinion they had an honest belief that their resulting statements were true; both the Minister of Energy and the Government House Leader avowed this to the House on October 15. I have not been convinced that the second McGee criterion has been established.

While the sequence of events certainly demonstrates that some statements were incorrect when they were made, as I have said, I accept that they were believed to be true at that time, not made with the intention of misleading the House, and corrected at the earliest opportunity when it became clear they were incorrect. There is no evidence before me that would support a contrary opinion.

For these reasons, I find that a *prima facie* case of contempt on the basis that a Member has deliberately misled the House has not been established.

In closing, I thank the Member for Prince Edward–Hastings, the Government House Leader, the Member for Timmins–James Bay for speaking to this matter, and the Government House Leader and Official Opposition House Leader for their written submissions.

That, in the opinion of this House, the following principles should be immediately applied to the Province's gaming policy:

2) A panel, composed of representatives nominated by the three recognized parties, be tasked with hearing from stakeholders and drafting fair spending limits for parties taking part in the referendum on casinos;

## ORDERS OF THE DAY

Opposition Day

Mr. Dunlop moved,

That, in the opinion of this House, whereas the McGuinty-Wynne Government's decision to create the *Ontario College of Trades* will impose yet another job-killing tax on hardworking trades-people by levying millions upon millions of dollars of new fees that have no clear benefit and that will go to a new government bureaucracy that is not accountable, resulting in increased costs of trades services upon everyday Ontarians; and,

Whereas Ontario's trades-people already pay fees for licenses and other government fees, the new *Ontario College of Trades* will merely become yet another government bureaucracy that no one wants or needs and will make life more expensive for all Ontarians and make everything from getting a haircut, to hiring a plumber, to buying a new home, to getting your lights or heating fixed or to having your car repaired more expensive; and,

Whereas Ontario has struggled enough under 10 years of deliberate decisions that have increased taxes and overspending in Ontario and a failure to attract more people, especially young people to skilled trades, the imposition of the *Ontario College of Trades* is nothing more than a jobs tax that will make job creation more expensive and it will drive even more Ontarians out of the trades or out of Ontario;

Therefore, the McGuinty-Wynne Liberals should abandon their misguided job-killing trades tax and abolish the *College of Trades*.

A debate arose, and during the debate, the Member for Lanark–Frontenac–Lennox and Addington (Mr. Hillier), having disregarded the authority of the Chair, was named by the Acting Speaker, Mr. Miller (Hamilton East–Stoney Creek), and directed to withdraw from the service of the House for the balance of the sessional day.

## PÉTITIONS

**ORDERS OF THE DAY**

Opposition Day

Mr. Clark moved,

Whereas, a Motion of Want of Confidence is one of the most serious parliamentary tools available to any opposition party throughout the Commonwealth that uses the Westminster system of Parliament;

Whereas, motions of non-confidence are generally moved against governments when governments conduct their affairs that breach the trust of the people;

Whereas, it is not only parliamentary tradition but convention that when a motion of Want of Confidence is called against a government, that the government in question will want to dispense with such a motion so as to prove to Her Majesty and the people that they still retain the confidence of the House and moral authority to govern;

Whereas, the failure on the part of any party to agree to call any such motion for a timely debate and vote is not only an affront to democracy but shows disrespect and disregard toward the will of the people who elected members of an assembly;

Therefore, it is the opinion of this House, that the House Leaders of all the three recognized parties shall schedule for Tuesday, May 28th, 2013 a debate and a vote on the Motion of Want of Confidence standing in the name of Jim Wilson, MPP (Simcoe–Grey).

## ORAL QUESTIONS

## QUESTIONS ORALES

The Speaker delivered the following ruling:-

Le Président a rendu la décision suivante :-

On August 14, the Member for Simcoe–Grey provided me with written notice of his intention to raise a point of privilege upon the resumption of the House.

I am now prepared to give my ruling without hearing further from the Member for Simcoe–Grey, as Standing Order 21(d) permits me to do.

The Member's point of privilege relates to the existence of certain emails that were recently produced to the Standing Committee on Justice Policy in connection with that committee's review of the gas plants issue generally, and my September 13, 2012 ruling specifically.

These emails chronicle a discussion among a number of then-current and former staff in Premier McGuinty's office, and are offered by the Member for Simcoe–Grey as evidence that an attempt was made to influence or intimidate me with respect to my ruling arising from the point of privilege put forward on August 27, 2012 by the Member for Cambridge.

As I have said in a public statement on July 30, I cannot speak to the mindset or motivation of the authors of these emails. However, I think it is crucial to note that my ruling that a prima facie case of privilege had been established by the Member for Cambridge, was made on September 13, 2012 - fully eight days before the emails in question here.

I can tell the House that I made that September 13 ruling without any interference from any person, based on the evidence and arguments put forward to me by various Members of the Assembly, based on the August 27, 2012 report of the Estimates Committee, and in consultation with only my procedural advisors at the Table. At no time did any person seek to pressure me with respect to that ruling. And, it having been made, it was not changeable in any event- this simply was not possible.

As I also noted in my July 30 public statement, I meet and have discussions regularly on a wide variety of issues related to my duties and responsibilities as Speaker. I'm sure all Members can appreciate the extreme reluctance I would have in divulging the topic or content of any of those discussions, for many of them take place with you and your colleagues. To do so would justifiably open me up to criticism that I cannot be trusted to keep confidences, regardless of whether they are of great or minor importance.

However, given the serious nature of the matter at hand and in what I judge to be in the best interests of this institution, I am prepared to say that at no time, in any discussion I might have had after delivering my September 13 ruling, was I the recipient of any inappropriate overture or suggestion. I have not been pressured, intimidated, cajoled, warned or threatened in any way, nor was any influence exerted upon me to do or say any particular thing or to pursue any particular course of action. Nothing of this nature has taken place.

It is because I can so clearly give the House this assurance that I must find that a prima facie case of privilege does not exist. I thank the Member for Simcoe–Grey for providing me with a comprehensive notice in this matter.

**ORAL QUESTIONS**

The Speaker informed the House,

I want to quickly advise the House that the motion passed on June 5, 2013 with respect to the legislation establishing the Financial Accountability Officer, Bill 95, has an anomaly with respect to the timing for the Legislative Assembly Committee to report the Bill after it completes clause-by-clause consideration.

In the absence of any other instruction from the House to do otherwise, it will make sense for the Committee simply to follow what would normally happen in any committee on any bill, that is, that the Committee report the Bill at the first available opportunity following completion of clause-by-clause.

Therefore, the Committee will report the Bill tomorrow afternoon during Routine Proceedings if it has finished clause-by-clause consideration by that time. If not, the Bill will instead be reported on Thursday afternoon during Routine Proceedings.

This timing is relevant because the reporting of the Bill triggers an immediate 2-hour debate on Third Reading of the Bill.

Second Reading of Bill 83, An Act to amend the Courts of Justice Act, the Libel and Slander Act and the Statutory Powers Procedure Act in order to protect expression on matters of public interest.

Debate arose.

With unanimous consent,

On motion by Mr. Milloy,

Ordered, That during Routine Proceedings today, “Reports by Committees” be taken following “Petitions”, and that the House be authorized to meet beyond its normal hours of adjournment until completion of Third Reading debate on Bill 95 at which time the Speaker shall adjourn the House to the next sessional day.

**10:30 A.M.**

The Speaker addressed the House:-

Yesterday, the Member for Renfrew–Nipissing–Pembroke asked for some clarification of a directive from me to withdraw certain language. The Member indicated that his use of the full name of the Premier should have been allowed in the context of referring to the government.

Let me first be clear on one point. The withdrawal I sought from the Member from Renfrew–Nipissing–Pembroke did not relate to the use of a proper name so much as to language that followed which is considered in most cases to be unparliamentary. The use of the proper name in the lead up to the use of this language left the impression that the subsequent accusation was directed at an individual member. In short, in my mind, the Member for Renfrew–Nipissing–Pembroke said something indirectly that he is prohibited from saying directly. Therein is the danger in using proper names.

**ORDRE DU JOUR**

Deuxième lecture du projet de loi 83, Loi modifiant la Loi sur les tribunaux judiciaires, la Loi sur la diffamation et la Loi sur l'exercice des compétences légales afin de protéger l'expression sur les affaires d'intérêt public.

Avec le consentement unanime,

Sur la motion de M. Milloy,

Il s'élève un débat.

À 10 h 15, l'Assemblée a suspendu la séance.

**10 H 30**

Le Président s'adresse à l'Assemblée :-

Members should not refer to one another by name but rather by title, position or constituency name. As stated in O'Brien and Bosc, the reason for this is "to guard against the tendency to personalize debate."

When a Member is referring to a particular administration as a collective, we have a practice of permitting the Premier's surname to be attached, as in the "Davis government" or the "McGuinty government". This exception stops short though of including the given name. The proper reference to this current government therefore should be the "Wynne government". In the interest of civil discourse and to guard against personal attacks, I seek the cooperation of all members in this regard.

The Speaker addressed the House:-

Le Président s'adresse à l'Assemblée :-

Members will be aware that there appear on today's Orders and Notices Paper, two notices of an Opposition Day to be debated next week. Under Standing Order 43(c), the Speaker is required to select one of these notices for consideration.

This presented a challenge in this case for two reasons; first, both opposition parties have only one allocated day remaining and second, the notices were both received at virtually the same time. Any decision based on these considerations therefore would have been arbitrary.

However, Members will also know that Standing Order 43(a)(iii) provides that the 5 available Opposition Days in this Fall Sessional Period are to be allocated between the two opposition parties on the basis of the membership of their caucuses, relative to each other. Currently, where circumstance presents us with the situation where it will be possible for there to be only 4 Opposition Days this Fall it is, I think, a fair and reasonable thing to apply that same formula.

In so doing, the result is that the Official Opposition is mathematically closer to being entitled to three of four Opposition Days than the Third Party is to being entitled to two of four.

I therefore decide that the motion standing in the name of Mr. Hudak is the one that will be selected for debate next week.

**ORDERS OF THE DAY****ORDRE DU JOUR**

Opposition Day

Jour de l'opposition

Mr. Hudak moved,

M. Hudak propose,

That the Legislative Assembly of Ontario calls upon the government,

To recognize that Niagara Health System supervisor, Dr. Kevin Smith, recommended that consolidating existing hospitals in Niagara into a new Niagara South Hospital will provide better services for patients and families by simplifying physician and staff coverage to enhance response times and reduce wait times; attracting and retaining specialists because of increased workload; and investing in state of the art equipment by eliminating the costs of duplicate machines at multiple facilities;

To recognize that the Wynne Liberal government received Dr. Smith's final report to build a South Niagara Hospital in September 2012 and for 14 months have dragged their feet on implementing his recommendations that would save taxpayers \$285 million in capital costs and \$10 million annually in operating costs - money that can be used to attract and hire more nurses and specialists.

To recognize that Dr. Smith stated on November 15th, 2013, that "it doesn't make financial or medical sense to build a new South Niagara Hospital and keep the existing sites open";

Therefore, it is the opinion of the Legislative Assembly of Ontario that a new Niagara South Hospital should be built at the Lyons Creek location in Niagara Falls, along with two additional urgent care facilities, to replace the Douglas Memorial Hospital, Greater Niagara General Hospital, Port Colborne Hospital, and the Welland Hospital.

## ORDERS OF THE DAY

Ms. Wynne moved,

That, the Legislative Assembly of Ontario call upon the federal government to recognize that there is a need to improve and strengthen the retirement income system in Canada and take immediate steps to implement enhanced Canada Pension Plan benefits for all Canadians;

Whereas the Canada Pension Plan is the foundation of the nation's retirement income system, the maximum CPP retirement benefit for new retirees is just over \$1,000 per month or \$12,000 per year; and the percentage of new beneficiaries receiving maximum CPP retirement pension is only 6 per cent and where the average Ontarian is receiving just under \$7,000 per year, or just 56 per cent of the maximum benefit;

And recognizing the retirement savings challenge, the Ontario government has developed a comprehensive retirement income strategy and is leading the call for a CPP enhancement;

An enhancement to the CPP is critical to ensuring that Ontarians, particularly middle-income earners, have greater financial security in retirement;

The Ontario government has laid out and received agreement from other provinces on a number of objectives for strengthening the retirement income system, including a CPP enhancement, focusing on today's workers, moderating the effect on the economy and improving the retirement incomes of those most at risk;

And while others will say we can put this off for another day, the Legislative Assembly of Ontario disagrees and encourages the federal government to agree to enhance CPP now;

And that this Assembly agree that Ontario should pursue its own solution to enhancing retirement security should the federal government not respond in a timely fashion.

Debate arose and after some time,

Il s'élève un débat et après quelque temps,

Mr. Yakabuski moved that the following be added at the end of the motion:

"And that the Legislative Assembly of Ontario believes that the Wynne government has failed to put forward a jobs plan over two months after the House cleared the decks;

Therefore, it is the opinion of this House that the House Leaders of all three recognized parties shall schedule a debate one week following the passage of this motion and a vote on the motion of want of confidence standing in the name of Jim Wilson, MPP, Simcoe-Grey."

Debate resumed and after some time the House adjourned at 6:00 p.m.

Dear Mrs. Deller:

A Writ of Election dated the Fifteenth day of January, 2014, was issued by the Honourable Lieutenant Governor of the Province of Ontario, and was addressed to Anna Di Ruscio, Returning Officer for the Electoral District of Thornhill, for the election of a Member to represent the said Electoral District of Thornhill in the Legislative Assembly of this Province in the room of Peter Shurman who, since his election as representative of the said Electoral District of Thornhill, has resigned his seat. Gila Martow, Member for the Electoral District of Thornhill, having taken the Oath and subscribed the Roll, took her seat.

Gila Martow, député de la circonscription électorale de Thornhill, ayant prêté serment et signé le registre, a pris son siège.

The Speaker delivered the following ruling:-

Le Président a rendu la décision suivante :-

On February 19, the Member for Timmins-James Bay raised a point of privilege relating to an unsuccessful attempt the day before by the Member for Prince Edward-Hastings, during Introduction of Bills, to receive unanimous consent to have his just-introduced Bill 156 immediately called for Second and Third Reading.

The Member for Timmins-James Bay noted that an open letter was later issued by the Member for Prince Edward-Hastings that asserted it was a member, or members, of the New Democratic caucus who said "no" to the request for unanimous consent.

The Member for Timmins-James Bay took particular offense to this because he asserted that his caucus was in fact in favour of the request for unanimous consent and therefore no member of the NDP would have, or did, say "no". For his part, the Member for Prince Edward-Hastings said it was and remains his honest belief that there were "noes" from the NDP caucus and that the opposite cannot be proven. And this, of course, is exactly the point of the matter - I think it is sufficient to state the obvious, that being, that on a request for unanimous consent no recording of the ayes and nays is made and therefore no record exists of which member or members might have declined their consent. The Speaker simply hears at least one "no" and the House moves on. It is therefore dangerous to make allegations about requests for unanimous consent, and even more so to attribute motive for the perceived refusal, since by their nature requests for unanimous consent are handled without debate and therefore without any opportunity for a member to state a position for or against.

It is important to note that requests for unanimous consent are required when a deviation from the Standing Orders is being sought. This is not a trivial thing, and it is perfectly within the right of any member to object, and no justification needs to be made for doing so. In the case of the request by the Member for Prince Edward-Hastings, his bill had just been introduced and no other member of the Assembly had even seen it yet. From my perspective it seems a bit unfair to put other members in that position, and uncharitable to criticise when the House does not blindly agree. In saying this, I note that more and more we seem to be seeing requests for unanimous consent that in my opinion are frankly engineered to be declined, so that some sort of political advantage can be taken by the so-called "aggrieved party" that did not get its way. I can't say that I approve of this when it occurs but I also have to note that during my Speakership I have seen this tactic used by all parties in this House and I am satisfied enough by the evidence before me that this is another one of those instances. Being the victim of an ill-advised but all-too-common political tactic does not rise to an abuse of any parliamentary privilege.

I do not want to seem dismissive of the point raised by the Member for Timmins-James Bay, however, and want to address the ruling from the Canadian House of Commons that the Member for Timmins-James Bay pointed out. As that ruling makes clear, it could amount to a breach of privilege if anyone, including a member of this Assembly, were to deliberately misrepresent parliamentary proceedings, whatever the motivation for doing so, or its result. In this case, there are no actual vote records involved since, as I pointed out, none are recorded on requests for unanimous consent. The Members for Timmins-James Bay and Prince Edward-Hastings are left having a dispute that the Speaker cannot resolve. I therefore cannot find that a prima facie case has been made out.

**QUESTIONS ORALES**

The Speaker delivered the following ruling:-

Le Président a rendu la décision suivante :-

The Member for Elgin-Middlesex-London has given me notice of his intention to raise a point of privilege. His point relates to the legislation establishing the Eastern and Southwestern Ontario Development Funds, and a provision in it that states "If a public announcement is to be made about the provision of financial assistance or incentives within eastern Ontario or southwestern Ontario, as the case may be, the MPP who represents the affected area within the region must be given the opportunity to participate in the announcement."

The Member for Elgin-Middlesex-London states that such a public announcement was recently made in his riding, but that he was given no notice, nor the opportunity to participate as required by the legislation.

I am prepared to rule on this point of privilege without hearing further from the Member for Elgin-Middlesex-London, as Standing Order 21(d) permits me to do. It is well established in parliamentary procedure that the application of privilege is confined to proceedings in parliament, and to the activities of members in their parliamentary roles. Speakers of this Legislature and elsewhere have consistently ruled that a member's work outside of the Legislature, and specifically constituency-related matters, do not give rise to the protection of privilege.

As stated at page 117 of *House of Commons Procedure and Practice*, "In instances where Members have claimed that they have been obstructed or harassed, not directly in their roles as elected representatives but while being involved in matters of a political or constituency-related nature, Speakers have consistently ruled that this does not constitute privilege."

This position has been taken by Speakers of this Legislature as well. For instance, an April 26, 2001 ruling by Speaker Carr noted that "Speakers have consistently found – supported by the procedural authorities and a multitude of precedents – that privilege attaches only to a Member's parliamentary duties, and not to subsidiary duties away from Parliament."

On May 4, 2010, Speaker Peters noted in a ruling that:

(a)ccording to the procedural authorities and many previous Speakers' rulings, parliamentary privilege protects members in the execution of their strictly parliamentary duties – not the constituency or other duties that may fairly be said to be part of their job descriptions. On this point, the 2nd edition of Maingot's *Parliamentary Privilege in Canada* states the following (at pages 222 and 223): "The interference, however, must not only obstruct the Member in his capacity as a Member, it must obstruct or allege to obstruct the Member in his parliamentary work."

I appreciate that the Member for Elgin-Middlesex-London feels that he has been deprived of his ability to do part of his job, but it is that part of the job that is the important consideration in the case at hand: simply put, parliamentary privilege is not applicable to the constituency-related work of an MPP. The Member may have a valid grievance, however, and I would note that complying with the law is always a good policy. However, I cannot find that a *prima facie* case of privilege has been made out.

### ORAL QUESTIONS

### QUESTIONS ORALES

The Speaker delivered the following ruling:-

Le Président a rendu la décision suivante :-

In light of the passage of Bill 156, An Act to proclaim the month of January Tamil Heritage Month, I draw Members' attention to the fact that the Opposition Day designated for this afternoon is identically worded to the effective Section of Bill 156.

Standing Order 52 provides that "No motion, or amendment, the subject-matter of which has been decided upon, can be again proposed during the same Session."

I must therefore rule that the motion designating Opposition Day Number 2 is now out of order and may not be proceeded with.

The Speaker addressed the House:-

Le Président s'adresse à l'Assemblée :-

I want to ask for the indulgence of the House for just a few minutes to address the fire drill that was conducted in this building yesterday.

While I can appreciate that it may present an inconvenience to some, fire drills are an exercise in due diligence ensuring compliance with fire regulations - something that I as Speaker am responsible for. It is an important safety exercise that is only effective if it is conducted at a time when occupancy and business is in the normal to peak range.

Having received the preliminary report of yesterday's drill, I was generally encouraged by the response and want to express sincere appreciation to the vast majority of occupants who participated.

However, I was also disappointed to learn that certain occupants, including some MPP's, declined to evacuate the building.

I cannot stress strongly enough that the purpose of these fire drills is to certify that the proper procedures are in place for your safety. They also ensure that all occupants, Members and staff alike, are fully aware of the appropriate evacuation and re-entry procedures. Non-compliance with an evacuation order, even during a drill, is a serious and in my view foolhardy infraction of fire safety guidelines.

I would hope that Members of Provincial Parliament would offer some leadership in this respect and I trust that I can be assured of full cooperation the next time.

**10:30 A.M.**

The Speaker delivered the following ruling:-

On Thursday, March 20, 2014, the Government House Leader, having provided the required notice under Standing Order 21(c), rose on a point of privilege regarding a question posed to the Minister of Finance during Oral Questions on Tuesday, March 18.

The Government House Leader alleged that the Member for Nipissing, while posing his question to the Minister of Finance, knowingly "disclosed the contents of a confidential committee document" and as a result had committed a contempt of the Legislature.

In making his submission, the Government House Leader argued that the Member for Nipissing disregarded an Order of the Standing Committee on Estimates which protected certain documents the Committee received from the Ministry of Finance as confidential. The House Leader also stated that this potential breach of privilege was raised in the House because the Standing Committee on Estimates "is not currently sitting" and that it was brought forward at the earliest opportunity given the need to verify the accusation.

**10 H 30**

Le Président a rendu la décision suivante :-

The Member for Nipissing, in both his written and oral submission on this matter, contended that the information contained in his question was sourced from a set of "redacted documents that were to be made public" by the Committee under the same committee Order referred to by the Government House Leader. He also argued that this issue should have been properly raised at the Standing Committee on Estimates and that, in his opinion, it was not raised in a timely manner. I am not concerned with the time taken to raise this matter and find that it was reasonable in the circumstances and for the reasons given by the Government House Leader.

However, after reading and hearing the submissions made on this point of privilege, the Speaker is in the end presented with conflicting opinions but without the means to reconcile them. This power rests with the Standing Committee on Estimates which, as the custodian of the documents in question, is best able to decide if the allegation of improper disclosure is correct, and it can bring this matter properly before the House by adopting and presenting a report if it chooses to do so.

As to the assertion that the Standing Committee on Estimates is not currently sitting, in fact Standing Committees are struck for the duration of a parliament. Although this Committee has completed its consideration of last year's estimates, it can meet on a matter as important as Member's privileges and is the proper starting point if this matter is to be pursued.

The Government House Leader's point of privilege not having been preceded by these necessary steps, I must find that it has been prematurely brought to the attention of the House.

The Speaker delivered the following ruling:-

Le Président a rendu la décision suivante :-

On Monday, April 7, 2014 the Member for Nipissing (Mr. Fedeli) raised a point of privilege with respect to the upcoming Provincial Budget, and specifically with regard to a document the Member says is a blueprint for the government's plan to systematically pre-announce, over the next several weeks, the contents of the Budget.

The Third Party House Leader (Mr. Bisson), the Government House Leader (Mr. Milloy) and the Official Opposition House Leader (Mr. Wilson) also made submissions on this point.

The document referred to by the Member for Nipissing (the provenance of which is unknown; it has no reference to the person, office or authority responsible for creating it) is purportedly a four-and-a-half week schedule of announcements to be made in the lead-up to the Budget presentation, and the Member for Nipissing alleges that these announcements are of actual items that will eventually be included in the Budget. Since raising his point, the Member has provided me with two additional submissions that give details of government announcements whose timelines and topics show that the complained-of document predicted and accorded with actual events, thus supporting the validity of the document. The Member's case is that the announcements represent an improper disclosure of information that first ought to be given to the Legislature and, moreover, as disclosures of Budget contents via an intentional, systematic plan, are of a higher level of importance and represent a contempt of the Legislature.

The Third Party House Leader made the case that the foundational core function of this Assembly is to scrutinize and approve the government's plans to raise revenue and spend public funds. Because of this, proceedings related to financial procedure are of the highest importance among the business the House considers.

The Government House Leader, in both oral and later written submissions, contends that, in the first instance, there is significant authority for the case that the concept of budget secrecy is one of political convention, not parliamentary procedure or privilege. Secondly, the House Leader states that the Member for Nipissing is mistaken in relying for any support on the precedent of the so-called "Magna Budget" of 2003, since that instance represented a decision by the government of the day to present its Budget outside of the Legislative Assembly, and at a time when it was not sitting. In the present case, he points out, no such thing has taken place.

With respect to the issue of budget secrecy, it has been widely settled in the procedural authorities and in the major Westminster-style parliaments, including our own, numerous times, that a breach of budget secrecy does not equate to a matter of privilege.

For instance, the Member for Nipissing provides an excerpt from *House of Commons Procedure and Practice*, as follows:-

There is a long-standing tradition of keeping the contents of the budget secret until the Minister of Finance actually presents it in the House.

However, this citation immediately goes on to say the following:-

Respect for a budget's impact on financial markets has often been used as the basis of questions of privilege or points of order respecting the validity of budget proceedings where there has been a budget "leak". However, Speakers of the Canadian House have maintained that secrecy is a matter of parliamentary convention, rather than one of privilege. Speaker Sauvé noted that while a breach of budget secrecy

... might have a very negative impact on business or on the stock market [and] might cause some people to receive revenues which they would not otherwise have been able to obtain ... [it has] no impact on the privileges of a member. [It] might do harm - irrevocable in some cases - to persons or institutions, but this has nothing to do with privilege. It has to do with the conduct of a minister in the exercise of his administrative responsibility.

A very thorough and often-quoted ruling by this Assembly's Speaker, John Turner, on May 9, 1983, is well worth the time of members to read.

In part, the ruling says:-

Budget secrecy is a political convention, as is the practice that the Treasurer presents his budget in the House before discussing it in any other public forum. It has nothing to do with parliamentary privilege. My decision is supported by the decisions of a number of Speakers in several jurisdictions, including Speaker Sauvé on November 18, 1981, and most recently on April 19, 1983, and Speaker Smith of the Legislative Assembly of British Columbia on April 1, 1976.

I would also direct the attention of honourable members to the comments of Joseph Maingot in his text, *Parliamentary Privilege in Canada*, where he states: -

Parliamentary privilege is concerned with the special rights of members, not in their capacity as ministers or as party leaders, whips or parliamentary secretaries, but strictly in their capacity as members in their parliamentary work. Therefore, allegations of misjudgement, or mismanagement, or maladministration on the part of the minister in the performance of his ministerial duties do not come within the purview of parliamentary privilege. And neither does an allegation that a minister permitted a budget leak constitute a matter of privilege.

*Beauchesne's Parliamentary Rules and Forms*, 6<sup>th</sup> Edition, says at citation 31:-

Budget secrecy is a political convention, and if breached, the Minister may be attacked through a substantive motion, but not through a question of privilege.

In *Parliamentary Practice in New Zealand*, McGee states at page 475 that:-

Certainly, premature disclosure of the Budget has important political implications, though it is not a question of privilege.

In making his argument the Member for Nipissing seeks to draw a distinction between a breach of privilege (which as we see does not arise as a result of a budget leak) and contempt of the Legislature. The member cites various parliamentary authorities on the nature of contempt, and argues that the intentional advance disclosure of Budget contents outside the House lessens the role of the legislature, deprives it of its ability to discharge its proper functions, and diminishes the respect due to the House.

The Member for Nipissing argues that the lack of deference to the House in this case regarding information contained in a Budget raises this instance to parity with the so-called 2003 "Magna Budget", referenced earlier in this ruling.

In that instance, as noted by Speaker Carr in his May 8, 2003 ruling, the decision to present the Budget at the Magna facility was motivated by the government's own stated desire to have "a direct conversation with the people of Ontario", and this is how Speaker Carr addressed that:-

When the government or a member claims that a Budget presentation is needed outside the House well before it happens inside the House in order to communicate directly to the people or because of a perceived flaw in the parliamentary institution, there is a danger that the representative role of each and every member of this House is undermined, that respect for the institution is diminished, and that Parliament is rendered irrelevant. Parliamentary democracy is not vindicated by the government conducting a generally one-sided public relations event on the Budget well in advance of members having an opportunity to hold the government to account for the Budget in this Chamber.

As is well known, Speaker Carr then went on to find that a *prima facie* case of contempt had been established.

In the present case, I cannot find that there is any intention on the part of the government to similarly bypass or pre-empt normal procedures of the Legislative Assembly with respect to the 2014 Budget. Rather, I have expressly heard the Minister of Finance say on numerous occasions in this House that he intends to present his next Budget in this Chamber when he is ready to do so. As the Third Party House Leader so correctly pointed out, a core function of this Assembly is to consider and scrutinize the finances of the Province, and I see every reason to fully expect that to occur with respect to this year's Budget. I therefore can find no real parallel in the present case with that of 2003.

This matter in the end is far more akin to those numerous instances in which members have complained about the government of the day making important policy announcements outside the House. Whether it be the government's financial plan, or any other measure or announcement, Speakers have repeatedly looked unfavourably upon it when the House has not been the first to receive such information.

There are rulings almost too numerous to compile, in which Speakers have admonished governments for doing this, and defending the Legislature's claim to be the first recipient of major announcements. However, no Speaker has ever found that the snubbing of the Legislature in this manner has amounted even to a valid point of order - there being no Standing Order or practice to require it - let alone a breach of privilege or contempt of the Legislature. While Speakers have observed that it is at minimum a courtesy, if not an expectation, for the House to be deferred to, in the face of an unwillingness to do so in these types of instances, Speakers have consistently stated they have no authority to compel these types of announcements to be made in the House first.

We are left with the assertion that *bona fide* elements of an upcoming Budget have been released outside of the Legislature. Until a Budget is eventually presented, this won't be known but aside from this demonstrating a willingness on the part of the government to continue to make announcements outside the House and releasing information before it is given to MPPs, it also likely represents a diminishment of the considerations that previously made budget secrecy such an imperative political practice; modern governments seem to feel considerably less constrained about the Budget-related discussions they are willing to publicly have before a Budget is actually released. It is not for the Speaker to speculate on the reasons why this might be so.

For the reasons given, I do not find that a *prima facie* case has been made out.

Finally, though it did not function as an overriding precedent in this matter, I want to make an observation about how the 2003 "Magna Budget" privilege issue was resolved. In that instance, the motion that was moved as a result of the Speaker's ruling was:-

That this House declares that it is the undoubted right of the Legislative Assembly, in Parliament assembled, to be the first recipient of the Budget of Ontario.

After significant debate the House, in its wisdom, defeated this motion. That decision endures, and so it is therefore the standing posture of this Legislature that it is not entitled to be the first recipient of the Budget. As Speaker it is difficult to know what to make of that, and many of you may wonder the same thing. Nevertheless, time and circumstance have not changed the fact that the House made such a pronouncement.

I thank the Member for Nipissing for raising this matter, and the Government, Official Opposition and Third Party House Leaders for their submissions in response.

## ORAL QUESTIONS

During “Oral Questions”, the Member for Prince Edward–Hastings (Mr. Smith), having disregarded the authority of the Chair, was named by the Speaker and directed to withdraw from the service of the House for the balance of the sessional day.

## QUESTIONS ORALES

Pendant la période des « Questions orales », le député de Prince Edward–Hastings, M. Smith, ayant passé outre à l'autorité du Président, celui-ci l'a désigné par son nom et lui a ordonné de se retirer du service de l'Assemblée pour le reste de ce jour de session.

The Speaker delivered the following ruling:-

Le Président a rendu la décision suivante :-

On April 28, 2014, the Member for Nipissing (Mr. Fedeli) submitted a notice of his intention to raise a point of privilege. The notice alleges that there has been contempt of the Legislature on the basis that various Members of the House made deliberately misleading statements on Budget-related forecasts. Having had an opportunity to review various procedural authorities, including previous rulings by Speakers of this House, I am now prepared to rule on the matter without hearing further from the Member, as Standing Order 21(d) permits me to do.

The notice indicates that the Cabinet was informed on February 13, 2013, through a slide-deck, that a projected deficit figure for fiscal 2009-2010 in a 2009 government document had been more a worst-case figure than a realistic figure, and that the subsequent 2013 Budget reiterated this figure. The notice makes a second allegation, namely that various Cabinet Ministers made statements in the House that the government was on track to balance the Budget by 2017-2018, despite the Cabinet being informed on February 13, 2013, through the same slide-deck, that no plan was in place to achieve this objective, and that the fiscal outlook beyond fiscal 2013-2014 was deteriorating.

I first want to address serious questions as to the timeliness of the Member's point of privilege. It has been many weeks - if not months - since the Standing Committee on Estimates received the financial documents that form the basis of the argument made in the notice. This points to a lack of timeliness in submitting the notice. However, I am reluctant to dismiss the Member's point of privilege solely on the basis of timeliness, and therefore will address it as follows.

The notice refers to the so-called "McGee test" for determining whether a statement by a Member has deliberately misled the House. Pages 653 and 654 of the 3rd edition of McGee's *Parliamentary Practice in New Zealand* identifies what needs to be established for the Speaker to find a *prima facie* case of contempt based on a member deliberately misleading the House, as follows:

There are three elements to be established when it is alleged that a member is in contempt by reason of a statement that the member has made: the statement must, in fact, have been misleading; it must be established that the member making the statement knew at the time the statement was made that it was incorrect; and, in making it, the member must have intended to mislead the House.

As Speaker Carr indicated in a ruling in this House (at page 102 of the *Journals* for June 17, 2002):

The threshold for finding a *prima facie* case of contempt against a Member of the Legislature, on the basis of deliberately misleading the House, is therefore set quite high and is very uncommon. It must involve a proved finding of an overt attempt to intentionally mislead the Legislature. In the absence of an admission from the Member accused of the conduct, or of tangible confirmation of the conduct, independently proved, a Speaker must assume that no honourable Members would engage in such behaviour or that, at most, inconsistent statements were the result of inadvertence or honest mistake.

In the case at hand, I make the following observations about the application of the McGee test and Speaker Carr's ruling:

- With respect to the McGee test, the repetition of a worst-case financial figure used in a government document, and the supposed absence of a plan to achieve a fiscal objective, is not evidence of the falsity of the figure or of the objective. Moreover, with respect to the allegation that the government led people to believe that it had a plan to achieve the stated fiscal objective, the quoted statements made by Ministers in 2013 refer only to being on track toward the fiscal objective, not to the plan to achieve it. Even if they had, I note that the slide deck itself refers to "the plan to balance" relying on "expenditure restraints" and "revenue raising measures".
- The slide-deck is far removed from pointing to a Member knowingly and intentionally making a misleading statement; it does not amount to (in Speaker Carr's words) "an admission from the Member accused of the conduct, or of tangible confirmation of the conduct, independently proved." The commentary in the slide-deck is not in the same ball-park as a Member making two completely irreconcilable statements in the House - and then conceding that he or she had done so knowingly and intentionally.

Finally, it is not the role of the Speaker to assess the rationale for the use of a worst-case figure in a financial document, let alone determine whether the figure amounts to misinformation.

- The evidence that the criteria in the McGee test have been satisfied is, at best, speculative.

For these reasons, I find that a *prima facie* case of contempt has not been established. I thank the Member for Nipissing for his notice.

### PÉTITIONS

### ORDERS OF THE DAY

Opposition Day

Mr. Fedeli moved,

That the Legislative Assembly of Ontario recognizes that Ontario families already pay \$9,970 a year in government paycheque deductions in addition to their personal income taxes - including employment insurance (EI), pension and health tax deductions - and as a result families cannot afford any new payroll taxes during these uncertain economic times; and

That new payroll taxes would significantly lower take-home pay, lead to immediate layoffs and keep youth from finding work.

Therefore the Legislative Assembly of Ontario agrees that payroll taxes and paycheque deductions are a direct tax on the middle class and that no new government programs, like an Ontario Pension Plan, should be funded by new payroll taxes.

**PÉTITIONS**

The Speaker delivered the following ruling:-

Le Président a rendu la décision suivante :-

Earlier today, the Member for Timmins-James Bay (Mr. Bisson) submitted a notice of his intention to raise a point of privilege. The notice alleges that answers made in Monday's Question Period by the Minister of Transportation to a question about a construction project were deliberately misleading and therefore a contempt of the House. After serious consideration, I am now prepared to rule on the matter without hearing further from the Member, as Standing Order 21(d) permits me to do.

In his notice, the Member contends that part of the Minister's answer was at variance with Ministry documents in the Member's possession which were released pursuant to a freedom of information request.

The so-called McGee test for determining whether a statement by a Member has deliberately misled the House was set out in a ruling I made yesterday. In yesterday's ruling, I also made reference to a ruling by Speaker Carr on June 17, 2002, which I think bears on this matter:

The threshold for finding a *prima facie* case of contempt against a Member of the Legislature, on the basis of deliberately misleading the House, is therefore set quite high and is very uncommon. It must involve a proved finding of an overt attempt to intentionally mislead the Legislature. In the absence of an admission from the Member accused of the conduct, or of tangible confirmation of the conduct, independently proved, a Speaker must assume that no honourable Members would engage in such behaviour or that, at most, inconsistent statements were the result of inadvertence or honest mistake.

Because he is not relying on the McGee test to make his case, the Member for Timmins–James Bay is instead effectively asserting that the documents he provided me represent, as Speaker Carr put it, “tangible confirmation of the conduct, independently proved”.

As a corollary to the McGee test, this information would have to be of a quality at least as high as that required to meet the McGee test itself. That is, it would have to be completely unambiguous, irrefutable proof of an overt attempt to intentionally mislead the Legislature. I accept that the Member holds the strong view that the freedom of information documents do achieve this, but even he states in his submission that the documentation “suggests” certain discussions occurred, a suggestion is not proof. For my part, in order to concur, I would have to make many large assumptions and inferences about what was discussed under certain agenda items at the meetings referred to in some of the documents provided to me, and even who was at those meetings. None of the material in any of the documents points to an intentional and direct contradiction of what the Minister of Transportation has said in this House.

With respect to the Member for Timmins–James Bay, I must conclude that the case at hand amounts to a disagreement as to fact, something the Speaker cannot resolve. I appreciate that Members often hold divergent views and interpretations on issues that are the subject of questions or debate. If so, the matter can be pursued, as has occurred in this case, in Question Period and other parliamentary proceedings; it is not a matter of contempt.

For the reasons indicated, a *prima facie* case of contempt has not been established. I thank the Member for Timmins–James Bay for his notice.
